Profile

Versatile Developer with a passion for crafting innovative solutions and delivering user-centric experiences. Experienced in both mobile and web development, leveraging expertise in UI/UX design and API integration to create seamless solutions. Committed to industry best practices and contributing to the success of diverse software projects.

Professional Experience

CodeX Lancers

Software Engineer

Nov 2023 – Present | Surat

- I specialize in backend development, building robust .NET Web APIs, with contributions to frontend work in Angular and Android (Kotlin/Java). I manage client communications, gather requirements, mentor junior developers, and focus on API integration and performance optimization, ensuring industry-standard solutions.

Significant Infotech Pvt Ltd

Intern Software Developer

Jun 2022 – Sep 2022 | Surat

- Designed and contributed to the development of multiple innovative and responsive native Android applications.

Junior Software Developer

Sep 2022 – Nov 2023 | Surat

- Designed, developed, and enhanced over 30 native apps, creating 15+ innovative and responsive apps from scratch while updating and optimizing features for more than 15 existing apps to ensure optimal performance and user satisfaction.
