Gaurav Nandankar

.NET Developer @CodexLancers | .NET | Angular | Android | C# |
JAVA | KOTLIN | Web API
Surat, Gujarat, India

Summary

Versatile and solution-oriented developer with a proven track record of building robust, scalable, and user-centric applications across both web and mobile platforms. I specialize in .NET (C#) and Angular for modern, high-performance web development, and Java/Kotlin for native Android applications—delivering seamless, responsive user experiences.

With hands-on experience in RESTful API integration, UI/UX optimization, and component-based architectures, I effectively bridge the gap between intuitive front-end design and scalable back-end systems. My approach emphasizes clean, maintainable code, and is grounded in industry best practices such as SOLID principles, Clean Architecture, and efficient state management.

☆ Core Skills: .NET (C#), ASP.NET Core, Angular, Android (Java/Kotlin), Web API, HTML5/CSS3/JavaScript, Razor Pages, SQL Server, RESTful Services, Entity Framework, LINQ, Git, Nuke Build Automation, Dependency Injection, Custom Assemblies, DLL Debugging, UI/UX Design, Clean Architecture, SOLID Principles, Component-Based Design, State Management, MVC/MVVM Patterns, Secure HTML Integration, PDF Generation (iTextSharp, QuestPDF, GO Lang), Visual Studio, Android Studio

☆ What I Value:

- Clean, maintainable code
- Intuitive, user-friendly interfaces
- Scalable, reliable backend architecture
- Continuous learning and team knowledge sharing

Experience

CodeX Lancers

Dotnet Developer

November 2023 - Present (2 years 2 months)

Surat, Gujarat, India

I primarily focus on backend development, building robust .NET Web APIs, while also contributing to frontend development with Angular and Android (Kotlin/Java). In addition to technical development, I manage daily client communications, gather requirements, and translate them into actionable tasks. I also mentor junior developers, helping them grow and navigate challenges. I specialize in API integration, optimizing application performance, and ensuring all solutions meet industry standards.

Significant Infotech

1 year 6 months

Junior Software Developer

September 2022 - November 2023 (1 year 3 months)

Surat, Gujarat, India

Designed and developed over 15 innovative, intuitive, and responsive native apps from scratch. Successfully updated and enhanced features for more than 10 existing apps, ensuring optimal performance and user satisfaction.

Intern Software Developer

June 2022 - September 2022 (4 months)

Gujarat, India

During training, designed and contributed to the development of multiple innovative and responsive native apps, demonstrating a strong commitment to continuous learning and growth. Actively collaborated in updating existing apps to improve features and optimize performance under mentorship.

Education

Veer Narmad South Gujarat University, Surat

Bachelor's of computer applications , Information Technology · (July 2019 - May 2022)
